Project Title: I-Connect: Web-based Solutions to Self-management and Support Connections for High School Students with Learning or Emotional/Behavioral Disorders

Principal Investigator: Wills, H
Co-Principal Investigator(s): Kamps, D
Sponsor: USDE - Office of Special Education Programs
Sponsor Award Number: H327A100082
Duration Dates: 10/01/10-09/30/13

Brief Description of Project: Purpose: The goal of this project is to develop a web-based solution to self-management, as well as support connections for high school students with learning disabilities or an emotional behavioral disability (mild/moderate). The idea is for these students to use self-management forms to monitor both academic productivity and behavioral performance, resulting in increased connectivity, accountability, and sharing of data with those that support them.
Method: Activities of this project include: (a) integrating two evidence-based strategies ("Check & Connect" and "Self-management") in a web-based solution to capitalize on an improved use of data in a Response-to-Intervention model; (b) combining new technology with existing materials and methodologies; and (c) conducting usability tests and a field trial until a fully-operating system is launched.
